Website / Portfolio: pablohidalgo.site

PROFILE

Business and data analyst with 8+ years managing B2B accounts in insurance, healthcare and media. I combine client relationships with data analysis (SQL, Power BI, Qlik Sense, Oracle BI) to track KPIs, understand portfolio performance and turn insights into concrete actions. Experience leading a regional unit and coordinating Collections, Claims and Prevention teams. Lived in Australia, Spain and Argentina.

EXPERIENCE

Account Manager, SMB – Health Benefits

Jun 2026 – Present

Grupo Omint · Health Benefits

- Built a custom React CRM to log, segment and track the SMB account pipeline.
- Designed a web quoting tool (landing page) for individual and corporate plans.
- Manage the SMB portfolio and its renewals.

Soft skills: Negotiation · Relationship Building · Problem Solving | Tools: React · CRM · Microsoft Dynamics 365 CRM

Account Manager – Media

May 2025 – Jun 2026

Grupo América · Media

- Managed a portfolio of corporate accounts as main point of contact.
- Analyzed results and tracked commercial KPIs to spot opportunities and risks across the portfolio.
- Prospected new accounts through social media and cold outreach, and grew existing ones through upselling and cross-selling.

Soft skills: Communication · Customer Focus · Adaptability | Tools: Social media prospecting · Cold outreach · Upselling · Cross-selling

Data Analyst – AI Training & Evaluation

Jul 2024 – Apr 2025

Outlier

- Evaluated and rated LLM outputs for accuracy, coherence and language quality.
- Data quality control: validated interactions and flagged errors and inconsistencies.
- Applied evaluation criteria and rubrics to improve model responses.

Soft skills: Critical Thinking · Attention to Detail · Time Management | Tools: AI Training · LLM Evaluation · Prompt Engineering · Generative AI · Data Analysis · Quality Assurance

Business Analyst → Workers' Compensation Operations Manager

Nov 2015 – Jan 2023

Federación Patronal Seguros · Insurance

ART is Argentina's workers' compensation system for occupational risks.

- Analyzed claims and portfolio data in Oracle BI (by region, product and risk) to set commercial and underwriting policies.
- Built management reports on portfolio, retention and collections KPIs, with account tracking in Microsoft Dynamics 365 CRM.
- Led the regional ART unit, coordinating Collections, Claims and Prevention to retain the portfolio, recover receivables and set up payment plans.

Soft skills: Leadership · Analytical Thinking · Stakeholder Management | Tools: Advanced Excel · Oracle BI · Microsoft Dynamics 365 CRM

PROJECTS

Tractchun · Power BI — Interactive report on 97,948 IT support tickets: star schema, DAX KPIs (satisfaction, days open, tickets per agent).

Sleep Hygiene · Qlik Sense, SQL, Snowflake — Analysis of 374 people: data cleaning and modelling; 41.6% have a sleep disorder, with stress as the main driver.

Pipeline CRM · React — Custom CRM to manage the B2B pipeline: logging, segmentation and follow-up of accounts and opportunities.

Pricing & Quoting Tool – Individuals & Companies — Web quoting tool that compares plans by employment status or headcount and generates a client PDF. 1–2 minutes per quote.

Landing Page & Lead Generation — Lead-capture landing page with quote form, plan comparison and enquiries routed to WhatsApp and email.
